TITLE/THEME: *Advancing Family and Community Medicine Education: Strengthening the Integration of Patient, Family and Community Health in Training*

DATE: July 26-27, 2025

PLACE: The Marison Hotel, Legazpi, Albay

OVERVIEW:

This convention will enable Family and Community Medicine educators' further knowledge and skills by integrating Patient centered, Family focused, and Community Oriented health in education and in training. This activity aims to strengthen the understanding of and applying the competencies of PFC matrix and incorporating Patient, Family, and Community Health with the aspiration of delivering holistic care. With the advent of full implementation of Universal Health Care, deepening the foundational understanding of how family and community influence health outcomes will prepare FCM physicians and educators to the next level of care and service.

OBJECTIVES:

After the 2-day convention, the participants will be able to:

1. Acquiring the knowledge to address social determinants of health, to improve patient care, and advocate community health.
2. Equip FCM physicians the necessary skills on how to incorporate PFC matrix to foster partnerships with families and communities to cultivate learning and training.
3. Learn from best practices and models in integrating family and community health in medical education, that can provide opportunities for adaptation.
